

Cleaning and Sanitation

Precautionary Measures:

- Intensified cleaning and disinfection.
- Hand sanitizer available in all classrooms.
- High-touch surfaces sanitized throughout the day.
- All rooms will be cleaned on a daily basis with a fogging machine.
- Every classroom has disinfectant which will be sprayed on all desks and chairs between classes.
- Lockers will be sprayed with disinfectant following each rotation.

Details:

Custodial personnel will be present throughout the day to wipe down common areas and sanitize the restrooms. A list of duties has been created and custodians have been trained on their new duties.

The school will be sanitized daily prior to the start of the school day.

The exterior of classroom doors, locker room doors, weight room doors, and all doors to the main building and modular classrooms, including the front gate, will be sanitized after each class rotation.

Following each lunch period, the tables will be washed and then sprayed with disinfectant.

At the end of the school day, all rooms will be fogged with disinfectant.

Custodial staff will be employing the use of various technologies to facilitate sanitation and disinfection of the school such as; sprayers, foggers, and UV light disinfection.
