

Parental responsibilities and stay home when ill

Home is the first point of our health screening continuum. The importance of staying home when sick cannot be emphasized enough. Parents/students, faculty and staff must monitor for symptoms at home prior to leaving for school.

Students must not come to school if exhibiting any of the following symptoms:

- o Cough
- o Shortness of breath or trouble breathing
- o Chills
- o Fever
- o Sore throat
- o Body aches

· Students' presence at school implies that the student is symptom free.

In an abundance of caution, any person experiencing symptoms should remain home.

Parents are responsible for keeping their student's emergency contact and health information up-to-date.
